## **Grade conversion**

Each semester is concluded with an evaluation period after which the results are published.

Students can download a digital copy of the results sheet themselves via their individual student file.

ENSAPL uses the customary French grade point system. Study results are graded on a scale from 0 to 20, meaning :

A grade of 16 or 17 is awarded very sparingly, a grade of 19 or 20 is exceptional.
The average grading for examination would be 10/20.
Most of the marks are between 10/20 to 12 /20.
14 /20 is an excellent mark for the studio project.

Students have second exam chance in case of a fail. The resit exam is organized at the end of each semester. There is no second examination opportunity for practical courses.
